Five Men Drive Up to Detroit Office in Midafternoon and Steal \$10,738.

St. Joseph, Mo. Nov. 23.—The days of the hard riding, quick shooting James boys were recalled to-day when six bandits robbed the First National Bank of \$4,000 in gold and currency. This time the speedy ponies, which would sprint the instant their masters finished the job and jumped back to the saddle, were missing, but little else of the spectacular was lacking.

To-day's bandits came by automobile. Their watchers held a crowd of citizens at bay while inside men grabbed the loot. The detonation of the expeeding vault, the cornering of the night watchman, the wounding of the exceedingly curious and the hurrled getaway all

New Theory in Death of Six in Ohio.

Following the rejection to-day by the Master of the Rolls of the motion for a writ of habeas corpus requiring the Government to release Erskine Childers on the ground that the civil court had no jursidiction, his counsel announced transport of tagedy that wheel out the Irving Henderson family, mother, father and four children, State, city and county officials to-night had concentrated upon two theories.

Major Redondo Sutton, honor graduate of West Point in 1913, who was convicted on October 11 last of publishing false prospectuses about the stock of the Pacific Minerals and Chemical Company, of which he was president, was sentenced by Judge Talley in General Sessions yesterday to from six months to three years on Blackwells Island.

Judge Talley said the length of Sutton's sentence would depend largely on

to-night had concentrated upon two theories.

The foremost one is that the family died from poison, probably in food.

A second surmise is that carbon monoxide gas from a hot plate in the kitchen or from the living room stove caused the deaths.

County Prosecutor Radciffe and Chief of Police Wallace said they do not see how poison could have been administered by an outsider. They are working on the assumption that the mother, in a fit of mental depression caused by ill health, poisoned the children, herself and her husband.

Mr. Hadcliffe and Chief Wallace said they are not putting much stock in reports that enemies of Henderson in the Pennsylvania Raifroad shops here, where he had been employed as a nonunion worker, plotted to "get him."

No action will be taken here, the officials said, until tests of vital organs of Mr. and Mrs. Henderson have been made by the State chemist at Columbus and until other examinations by State officials are concluded.

The New York Herald correspondent was informed that the military authorities had intended to execute Children to morrow morning as the result of the decision of the military court. In flew of the fact that the decision of the Master of the Rolls turned simply on the premise that a state of war exists, the authorities may feel that Childers's attorneys are merely "stalling" for time in making their appeal, and the military may carry out the sentence to-morrow, though this is problematical.
